
CLIENT ACQUISITION PROPOSAL

Survival 401k

A 90-day plan to turn the funnel we built into a steady flow of booked calls for solo 401(k) plans.

PREPARED FOR
Ross Powell

REVIEW CALL
Friday

• THE SITUATION

The plan works. What is missing is what feeds it.

Survival 401k has spent 12 years building a service that holds up: 550 clients served, delivery so automated a single button now generates all 11 plan documents, and a close rate of 85 to 90 percent once a real conversation starts. What slowed is the top of the funnel. Podcasts and referrals used to fill the calendar, and a \$300,000-a-year finder's fee relationship that once carried a lot of that flow has gone quiet. Paid ads were tried and burned spend without a structured offer or video behind them. Nothing has stepped in to replace what used to work, and that is the one piece left to build.

12yrs

In business, with 550+ clients served.

85-90%

Close rate once a conversation starts.

1-2/mo

New clients today, against a goal of 10 to 20.

• WHAT WE BUILT YOU FIRST

Before we ever spoke, we rebuilt the Survival 401k offer as a live, branded funnel, the same structure that acquires our own clients. Here it is:

Live at demos.optimally.ltd/survival401k. If for any reason you cannot open the link, the screenshot above shows it exactly.

But be clear: what this is, right now, is a **shell**. A page on its own is a parked car. It looks the part, yet it does not move. Three things make it actually drive, and all three are missing.

△ **MISSING**

No Offer

The headline is a best guess. A page converts on its offer, not its pixels.

△ **MISSING**

No Video

The video box is empty. The video is the salesman that warms visitors up.

△ **MISSING**

No Traffic

Nobody is arriving yet. A page with no traffic is a billboard in the desert.

• WHAT WE DO • THE THREE GAPS WE FILL

Offer. Video. Traffic.

This is the difference between the free page and a page that fills the calendar. Each gap is a problem that is hard to solve from inside the business, and each one is what the fee covers.

1

The Offer

"The page is only as good as the offer on it."

WHAT WE DO

A focused hour together, combining your 12 years of knowing this client (the 1099 solopreneur worried about tax exposure and the IRS) with our pattern library from running dozens of funnels, to engineer the Solo 401(k) offer into something a cold stranger stops for.

WHY IT MATTERS

Facebook, Google, and Gab ads all produced impressions with no clicks. That is an offer problem wearing a traffic costume, not a platform problem. The page is only as good as the offer on it, and that is usually the single biggest lever on the whole funnel.

THE RESULT

A message cold prospects actually respond to. The difference between the wasted spend already tried and a calendar that fills.

2

The Video (VSL)

"A salesman that works while you sleep."

WHAT WE DO

We **script and edit** the video sales letter for you, on a proven structure: hook, problem, mechanism, proof, call to action. No writing or filming burden on your side.

WHY IT MATTERS

You close 85 to 90 percent once someone is actually on the call with you, but that warming currently only happens live, one conversation at a time, and it does not scale. The VSL does that same warming before the call, at scale, so prospects arrive already three-quarters sold.

THE RESULT

Higher show-up, higher close, less selling to do live, and that same close rate holding up on **strangers**, not only the podcast listeners and referrals it currently depends on.

3

The Traffic

"A billboard in the desert sells nothing."

WHAT WE DO

Included, done for you: we build a reactivation newsletter from the audience Survival 401k already owns, 12 years of CRM contacts, LinkedIn connections, and email history across 550 clients, filter it to real prospects, and drive them to the page across the 90 days.

THE BONUS

If faster results are ever wanted, PodMatch podcast placements and LinkedIn outreach can run alongside it, or a Meta ad budget can be added and **we**

• THE GUARANTEE

5 booked calls in 90 days, or we keep working **free**.

We guarantee only what we control: qualified calls on the calendar. Not closes, not revenue, those stay yours. If we do not deliver the five, we do not walk away. We keep going until they are there.

• THE MODEL, ON REAL NUMBERS

What the guaranteed minimum looks like

This deliberately assumes a close rate of 60 percent, well under the real 85 to 90, and a conservative average client value based on what you told us. Only the five booked calls are guaranteed.

INPUT	CONSERVATIVE FIGURE
Guaranteed booked calls	5
Close rate (real rate is 85 to 90%)	60%
Average client value	\$3,000
New clients off the guaranteed floor	3
Revenue off the guaranteed floor	\$9,000
The investment	£2,500 (≈ \$3,000)
Estimated return on the guaranteed minimum	≈ 3x

And that is the floor. At the close rate you actually run, 85 to 90 percent, five calls is closer to 4 clients, around \$12,000, roughly 4 times over. The newsletter keeps producing after that, and clients who stay 5 to 10 years compound well beyond this table.

These figures are estimates built from the numbers you shared with us, and depend on your own close rate and pricing.

Prefer to run your own numbers? Model them in the live calculator.

• PROOF

The same system, already working.

A few of the businesses running this exact structure with us right now.

**\$40k →
\$180k**
per month

Liam Evans
Unorthodox Digital

"You've saved me time and made us money. The business is only as strong as the systems it's built on, and what you built us is world-class."

\$0 → \$40k
per month

Kasey Jones
Essentialist CEO

We averaged around 550 leads a month for Kasey through her funnel, starting with the newsletter and then evolving into paid traffic.

**\$50k →
\$90k**
per month

**Matthew
DiMarcantonio**
Ember

Grew to a consistent \$90k a month through his funnel, and is now doubling his marketing input and spend on the back of it.

• EXACTLY WHAT YOU GET

The Conversion Ecosystem

A complete, done-for-you client acquisition system. Everything below is included and yours for the 90 days.

✓ **Offer engineering session**
Your service mapped into a cold-traffic-ready offer.

✓ **Scripted & edited VSL**
Your video sales letter, fully written and produced.

✓ **Opt-in & booking flow**
Name, email and phone through to your calendar.

✓ **90 days of active traffic**
We drive the funnel for the full engagement.

✓ **Meta ad management**
Optional bonus. Only if you fund ads to scale.
Managed free.

✓ **Custom funnel in Framer**
A branded, responsive landing page built around it.

✓ **Confirmation page + FAQs**
A thank-you page wired to the booking flow.

✓ **Reactivation newsletter**
Built from your CRM, LinkedIn and email, run for 90 days.

✓ **The guarantee**
5 booked calls in 90 days, or we work free.

• THE ROADMAP · A 90-DAY INTRO ENGAGEMENT

£2,500

approx \$3,000 · one-time

We bill in GBP, but that is roughly **\$1,000 a month** to conservatively generate around **\$9,000** in new business from the guaranteed calls alone, and likely more at your real close rate. The complete 90-day engagement, funnel live in 7 days, with a five-call guarantee behind it.

Want to save \$700?

Introduce another business owner who wants more booked calls, and if they come on board with us, we knock **£500 (roughly \$700) straight off your engagement**, refunded the moment they close. The easiest way to set it up is a quick three-way WhatsApp with you, me, and them.

• STRAIGHT ANSWERS

The questions worth asking

"Past ads got impressions but no clicks. Why would this work?"

Because those ads had no engineered offer and no VSL behind them. Impressions with no clicks is an offer problem, not a platform problem, and that is exactly Gap 1: we fix the offer before a single dollar goes anywhere near traffic.

"Why pay when I can just take the free funnel and run with it?"

You keep the page either way, that was always the deal. But on its own it is a shell: no engineered offer, no video, no traffic behind it. The fee is what turns the shell into something that actually books calls.

"Do I also have to pay for ads on top of the \$3,000?"

No. The reactivation newsletter, built from your own CRM, LinkedIn, and 12 years of email contacts, is included and carries the guaranteed calls on its own. Meta ads are an optional bonus later, and we would manage those at no extra fee.

"I want to look over the funnel properly before I decide."

Completely fair, and exactly what this document and Friday's call are for. Take your time with it this week, then give a straight yes or no on the call so we both plan our time well.

"Can the \$3,000 be split rather than paid upfront?"

If a monthly split is what makes this a yes on Friday, we can do that. The default is upfront, but it is a detail we can work around, not a sticking point.

The next step

We speak again **Friday**. Take a proper look at the funnel and this proposal before then. On the call we will answer anything still open, and the one thing we ask is a clear yes or no, so we both plan our time well. If it is a yes, the seven-day build starts that day. If it is a no, no hard feelings, and the page is yours to keep.

Reuben Shears

Founder, Optimally

P.S. You mentioned that the point of growing Survival 401k again is what it lets you give away, not just what it lets you keep, and that stuck with me. A business built to fund something bigger than itself is exactly the kind worth putting a proper engine behind. Looking forward to Friday.
