
CLIENT ACQUISITION PROPOSAL

Survival 401k

A 90-day plan to turn the funnel we built into a steady, predictable flow of booked calls, so volume stops being the one thing holding the business back.

REVIEW CALL

Friday

• THE SITUATION

Almost everything is already in place.

Survival 401k has spent twelve years building a service clients stay with and refer, with roughly 550 of them structured over that time. Delivery is highly automated and the close rate sits at 85 to 90 percent once a conversation starts. What slowed is the top of the funnel: the podcasts and referrals that once drove five plans a day quietened, and no structured system stepped in to replace them. That flow is the one piece left to build, and it is the piece we do.

12_{yrs}

In business, with roughly 550 clients structured.

85-90%

Close rate once you are in a conversation.

1-2_{/mo}

New clients today, against room for 10 to 20.

• WHAT WE BUILT YOU FIRST

Before we ever spoke, we rebuilt the Survival 401k offer as a live, branded funnel, the same VSL structure that acquires our own clients. Here it is:

Live at demos.optimally.ltd/survival401k. If for any reason you cannot open the link, the screenshot above shows it exactly.

But be clear: what this is, right now, is a **shell**. A page on its own is a parked car. It looks the part, yet it does not move. Three things make it actually drive, and all three are missing.

⚠ MISSING

No Offer

The headline is a best guess. A page converts on its offer, not its pixels.

⚠ MISSING

No Video

The video box is empty. The video is the salesman that warms visitors up.

⚠ MISSING

No Traffic

Nobody is arriving yet. A page with no traffic is a billboard in the desert.

• WHAT WE DO • THE THREE GAPS WE FILL

Offer. Video. Traffic.

This is the difference between the free page and a page that fills the calendar. Each gap is a problem that is hard to solve from inside the business, and each one is what the fee covers.

1

The Offer

"The page is only as good as the offer on it."

- WHAT WE DO** A focused hour together, combining your twelve years inside this niche with our pattern library from running dozens of funnels, to engineer the 401k service into a **cold-traffic-ready offer** that self-employed owners actually opt in for.
- WHY IT MATTERS** Your Facebook and Google ads drew impressions but almost no clicks, which is nearly always an offer problem wearing a traffic costume. It is the single biggest lever on the funnel, and the hardest thing to see from inside the business.
- THE RESULT** A message cold 1099 owners respond to. The difference between the wasted spend you have already seen and a calendar that fills.

2

The Video (VSL)

"A salesman that works while you sleep."

- WHAT WE DO** We **script and edit** the video sales letter for you, on a proven structure: hook, problem, mechanism, proof, call to action. No writing or filming on your side.
- WHY IT MATTERS** You close 85 to 90 percent once you are on the phone, but that warming only happens after a booking, and it does not scale. The VSL does that warming before the call, at scale, so prospects arrive already sold.
- THE RESULT** Higher show-up, higher close, and the same close rate holding up on **strangers**, not only the people who already heard you on a podcast.

3

The Traffic

"A billboard in the desert sells nothing."

- WHAT WE DO** **Included, done for you:** we build a reactivation newsletter from the audience Survival 401k already owns, your 550 past clients, your CRM, LinkedIn and years of email contacts, and drive them to the page across the 90 days.
- THE BONUS** If faster results are ever wanted, put a budget behind Meta ads and **we build and manage the whole thing at no extra cost.** The newsletter carries the guarantee on its own.
- THE RESULT** The booked calls we guarantee, from an audience that costs nothing extra.

• THE GUARANTEE

5 booked calls in 90 days, or we keep working **free**.

We guarantee only what we control: qualified calls on the calendar. Not closes, not revenue, those stay yours. If we do not deliver the five, we do not walk away. We keep going until they are there.

• THE MODEL, ON REAL NUMBERS

What the guaranteed minimum looks like

This deliberately assumes a close rate of 60 percent, well under your real 85 to 90, and a conservative client value taken from the numbers you gave us. Only the five booked calls are guaranteed.

INPUT	CONSERVATIVE FIGURE
Guaranteed booked calls	5
Close rate (real rate is 85 to 90%)	60%
Average client value	\$3,000
New clients off the guaranteed floor	≈ 3
Revenue off the guaranteed floor	\$9,000
The investment	£2,500 (≈ \$3,000)
Estimated return on the guaranteed minimum	≈ 3x

And that is the floor. At the 85 to 90 percent you actually close, five calls is closer to 4 clients, around \$12,000, and each one stays three to five years paying an annual fee, so the real return compounds well beyond this table.

These figures are estimates built from the numbers you shared with us, and depend on your own close rate and pricing.

Prefer to run your own numbers? Model them in the live calculator.

• PROOF

The same system, already working.

A few of the businesses running this exact structure with us right now.

\$40k → \$180k
per month

Liam Evans
Unorthodox Digital

"You've saved me time and made us money. The business is only as strong as the systems it's built on, and what you built us is world-class."

\$0 → \$40k
per month

Kasey Jones
Essentialist CEO

We averaged around 550 leads a month for Kasey through her funnel, starting with the newsletter and then evolving into paid traffic.

\$50k → \$90k
per month

Matthew DiMarcantonio
Ember

Grew to a consistent \$90k a month through his funnel, and is now doubling his marketing input and spend on the back of it.

• THE ROADMAP · A 90-DAY INTRO ENGAGEMENT

£2,500

approx \$3,000 · one-time

We bill in GBP, but that is roughly **\$1,000 a month** to conservatively generate around **\$9,000** in new client value from the guaranteed calls, and likely well more. The complete 90-day engagement, funnel live in 7 days, with a five-call guarantee behind it.

Want to save \$700?

Introduce another business owner who wants more booked calls, and if they come on board with us, we knock **£500 (roughly \$700) straight off your engagement**, refunded the moment they close. The easiest way to set it up is a quick three-way WhatsApp with you, me, and them.

• STRAIGHT ANSWERS

The questions worth asking

"Facebook and Google didn't work for me before. Why would this?"

Because those ads had no engineered offer and no VSL behind them, which is exactly why you saw impressions and no clicks. That is an offer problem, and fixing it is the first thing we do. The included traffic here also comes from people who already know you, not cold spend.

"Why pay when I could just take the free funnel and run?"

The page is yours to keep either way. On its own it is a shell, with no offer, no video and no traffic, a parked car. The engagement is what turns it into something that actually books calls.

"Do I have to pay for Facebook ads on top of the fee?"

No. The reactivation newsletter is included and carries the five guaranteed calls, built from your own contacts at no extra spend. Meta ads are an optional bonus, only if you ever want to scale, and we manage them at no extra fee.

"I want to look over the funnel properly before I commit."

Completely fair, and exactly what this document and Friday's call are for. Take a proper look, then give a straight yes or no so we both plan our time well.

"Can the payment be split monthly instead of upfront?"

It is upfront by default, but if a monthly split is what makes this a yes, we can arrange that. The guarantee stands either way: five booked calls in 90 days, or we keep working.

The next step

We speak again **Friday**. Take a proper look at the funnel and this proposal beforehand. On the call we will answer anything still open, and the one thing we ask is a clear yes or no, so we both plan our time well. If it is a yes, the seven-day build starts that day. If it is a no, no hard feelings, and the page is yours to keep.

P.S. What stayed with me is that you measure this business by what it lets you give away, the work in Africa you spoke about, not by what you keep, and that is exactly the kind of engine worth building.
