REVIEW CALL

Friday

• THE SITUATION

Almost everything is already in place.

Five years of referral business is the hardest thing to build, and MyMortgageLoan already has it: consistent volume, and close to eight in ten conversations becoming a funded deal. What has never existed is a second channel, because every hour went into serving the referrals that kept arriving. With Vita now running the marketing side, the capacity is finally there. One acquisition channel is the only piece missing.

5yrs

In business, built entirely on referrals.

8/10

Referral conversations that become funded deals.

3-5/mo

Deals today, against a goal of double that.

• WHAT WE BUILT YOU FIRST

Before we ever spoke, we rebuilt MyMortgageLoan as a live, branded funnel, the same structure that acquires our own clients. Here it is:

Live at demos.optimally.ltd/mymortgageloan. If for any reason you cannot open the link, the screenshot above shows it exactly.

But be clear: what this is, right now, is a **shell**. A page on its own is a parked car. It looks the part, yet it does not move. Three things make it actually drive, and all three are missing.

⚠️ MISSING

No Offer

The headline is a best guess. A page converts on its offer, not its pixels.

⚠️ MISSING

No Video

The video box is empty. The video is the salesman that warms visitors up.

⚠️ MISSING

No Traffic

Nobody is arriving yet. A page with no traffic is a billboard in the desert.

• WHAT WE DO • THE THREE GAPS WE FILL

Offer. Video. Traffic.

This is the difference between the free page and a page that fills the calendar. Each gap is a problem that is hard to solve from inside the business, and each one is what the fee covers.

1

The Offer

"The page is only as good as the offer on it."

- WHAT WE DO** A focused hour together, your five years of reading Alberta borrowers plus our pattern library from dozens of funnels, engineering one **cold-traffic-ready offer**, first-time buyers or debt consolidation, that a stranger opts in for.
- WHY IT MATTERS** You said it plainly on the call: there is no offer yet. Referrals never needed one, cold traffic needs nothing else. It is the single biggest lever on the funnel, and the hardest thing to see from inside your own business.
- THE RESULT** One clear promise a Calgary homeowner responds to. The difference between wasted spend and a calendar that fills.

2

The Video (VSL)

"A salesman that works while you sleep."

- WHAT WE DO** We **script and edit** the video sales letter for you, on a proven structure: hook, problem, mechanism, proof, call to action. Your only job is to read the script we hand you.
- WHY IT MATTERS** Eight in ten referrals close because they arrive already trusting you. A stranger from an ad does not, and that trust cannot be rebuilt one phone call at a time. The video does the warming before the call, at scale.
- THE RESULT** Prospects reach your calendar already sold on you, so the close rate holds up on **strangers**, not only referrals.

3

The Traffic

"A billboard in the desert sells nothing."

- WHAT WE DO** We build and run a done-for-you newsletter, a content and email engine that consistently turns the Alberta market into new booked calls, without you or Vita writing or sending a thing. It is included and runs the full ninety days.
- THE ACCELERATOR** Want volume faster? Fund any Meta ad budget you like and we build, run and manage the campaigns free for the ninety days. You pay only the spend.
- THE RESULT** A steady flow of new booked calls alongside the referrals, with a paid accelerator ready whenever you want more.

• THE GUARANTEE

5 booked calls in 90 days, or we keep working **free**.

We guarantee only what we control: five qualified calls on the calendar, from the funnel and newsletter we build and run for you. Not closes, not revenue, those stay yours. If we do not deliver the five, we keep working, free, until they are there.

• THE MODEL, ON REAL NUMBERS

What the 90 days looks like

A conservative estimate on your own numbers at a 20 percent close, the same figure we modelled live on the call and a fraction of the eight in ten you convert today. Ads are optional and would only push it higher.

INPUT	90-DAY ESTIMATE
Booked calls (90 days)	≈ 15
Close rate (real is 8 in 10 on referrals)	20%
Average client value	\$3,500
New clients	≈ 3
New revenue	\$10,500
Your investment (one-time fee)	≈ \$3,000
Estimated return	≈ 3.5×

An estimate across the full 90 days, built from the numbers you shared with us; your own close rate and pricing will move it.

Prefer to run your own numbers? Model them in the live calculator.

• THE ROADMAP · A 90-DAY INTRO ENGAGEMENT

£2,500

approx \$3,000 USD · one-time

We bill in GBP. The £2,500 covers building and running the whole system, **the done-for-you newsletter included**, for the full 90 days, roughly \$1,000 a month. If you want faster results, you fund a Meta ad budget of your choosing, from \$50 a day, paid straight to Meta, and we build and manage the ads for you **free** for the engagement.

Want to save \$1,000?

Introduce another business owner who wants more booked calls, and if they come on board with us, we knock **£750 (roughly \$1,000) straight off your engagement**, refunded the moment they close. The easiest way to set it up is a quick three-way WhatsApp with you, me, and them.

• STRAIGHT ANSWERS

The questions worth asking

"I paid an agency for lead gen a few years back and it went nowhere."

That campaign pointed ads at no engineered offer and no video, and ran about a month, which is not long enough to learn anything. Here the offer comes first, the video warms every visitor, and the newsletter runs the full ninety days whether or not you spend a penny on ads. You are also not paying into the dark: five booked calls are guaranteed, or we keep working free.

"Do I have to run ads, and what would I need to spend?"

You do not have to run any. The newsletter we build and run is included and carries the five-call guarantee on its own. If you want faster data and more volume, budgets start around \$50 a day paid straight to Meta, and we build and manage the campaigns for you free for the ninety days.

"Where does the page actually live? Do I need a domain?"

As a client you never touch it. We host it, connect it to a domain or a subdomain of mymortgageloan.ca, wire the booking flow into your calendar and maintain it for the ninety days. Vita gets access to all of it, and none of it lands on your plate.

"I want Vita's read on this before I commit."

That is the right call, and exactly what this document is for. She has been building landing pages already, so she will recognise the structure quickly and can tell you what it would take to do it in-house. Share it with her, then give us a straight answer on Friday.

"Can I just keep the free page and run with it?"

The page is yours either way. On its own it is a shell: our best guess at a headline, an empty video box and no traffic to it. The engagement is what turns it into something that books calls.

The next step

We speak again **Friday**, same time, with Vita on the call. Take a proper look at the funnel and this proposal beforehand. We will answer anything still open, and the one thing we ask is a clear yes or no, so we both plan our time well. If it is a yes, the seven-day build starts that day and the funnel is live before the end of next week. If it is a no, no hard feelings, and the page is yours to keep.
