
CLIENT ACQUISITION PROPOSAL

The House

A 90-day plan to turn the funnel we built into a steady, predictable flow of booked diagnostics and new families.

DECISION CALL

Wed 29 July

• THE SITUATION

Almost everything is already in place.

The House has spent years building something families stay with and refer, with strong local SEO and a free diagnostic that closes 60 percent or more once a student walks in. What slowed sits right at the top: the student word of mouth that used to compound has quietened since COVID, and no structured system has stepped in to feed the funnel in its place. The close was never the problem, the steady flow of new families into it is. That top of funnel engine is the one piece left, and it is the piece we build.

18_{yrs} Serving Chicagoland families, with a service they refer.	60%+ Close rate once a student takes the free diagnostic.	\$1M_{ARR} Today, with \$1.3M the next milestone in reach.

• WHAT WE BUILT YOU FIRST

Before we ever spoke, we rebuilt The House offer as a live, branded funnel, the same structure that fills our own calendar and our clients'. Here it is:

Live at demos.optimally.ltd/the. If for any reason you cannot open the link, the screenshot above shows it exactly.

But be clear: what this is, right now, is a **shell**. A page on its own is a parked car. It looks the part, yet it does not move. Three things make it actually drive, and all three are missing.

MISSING No Offer The headline is a best guess. A page converts on its offer, not its pixels.	MISSING No Video The video box is empty. The video is the salesman that warms visitors up.	MISSING No Traffic Nobody is arriving yet. A page with no traffic is a billboard in the desert.
--	--	---

• WHAT WE DO • THE THREE GAPS WE FILL

Offer. Video. Traffic.

This is the difference between the free page and a page that fills the calendar. Each gap is a problem that is hard to solve from inside the business, and each one is what the fee covers.

1

The Offer

"The page is only as good as the offer on it."

- WHAT WE DO** A focused hour together, combining thirty years of marketing this and knowing these families with our pattern library from dozens of funnels, to engineer The House into a **cold-traffic-ready offer** parents stop and opt in for.
- WHY IT MATTERS** Your free diagnostic already proves it: lead with value and they raise their hand. A strong page with a weak cold offer still gets no opt-ins, and the offer is the biggest lever on the funnel, the hardest thing to see from inside.
- THE RESULT** A hook cold parents respond to, so paid and organic traffic turns into booked diagnostics instead of impressions that go nowhere.

2

The Video (VSL)

"A salesman that works while you sleep."

- WHAT WE DO** We **script and edit** the video sales letter for you, on a proven structure: hook, problem, mechanism, proof, call to action. No writing or filming burden, faceless or someone from The House on camera, your call.
- WHY IT MATTERS** You already close 60 percent or more once a family is in front of you, but that warming only happens after the booking and does not scale. The VSL warms every visitor up front, at scale, so parents arrive already sold.
- THE RESULT** Higher show rate to the diagnostic, and that strong close holding up on cold parents who found you through an ad, not only word of mouth.

3

The Traffic

"A billboard in the desert sells nothing."

- WHAT WE DO** **Included, done for you:** we build a reactivation newsletter from the audience The House already owns, your HubSpot contacts and years of email history, filter it to real prospects, and drive them to the page across the 90 days.
- THE BONUS** If faster results are ever wanted, put a budget behind Meta ads and **we build and manage the whole thing at no extra cost.** It is never required, and the newsletter carries the guarantee on its own.
- THE RESULT** The booked calls we guarantee, at no extra spend.

• THE GUARANTEE

5 booked calls in 90 days, or we keep working **free**.

We guarantee only what we control: qualified calls on the calendar. Not closes, not revenue, those stay yours. If we do not deliver the five, we do not walk away. We keep going until they are there.

• THE MODEL, ON REAL NUMBERS

What the guaranteed minimum looks like

This deliberately assumes a close rate of 40 percent, comfortably below the 60 percent or more you already close after a diagnostic, and a conservative \$4,000 average value. Only the five booked calls are guaranteed.

INPUT	CONSERVATIVE FIGURE
Guaranteed booked calls	5
Close rate (real rate is 60%+)	40%
Average client value	\$4,000
New clients off the guaranteed floor	≈ 2
Revenue off the guaranteed floor	\$8,000
The investment	£2,500 (≈ \$3,000)
Estimated return on the guaranteed minimum	≈ 2.6×

And that is the floor. At the 60 percent you actually close, five calls is closer to 3 enrollments, around \$12,000, roughly 4 times over. And that is off the guaranteed five alone: the newsletter keeps sending across all 90 days, and a membership family who starts in eighth grade and stays through eleventh is worth well beyond the \$4,000 modeled here.

These figures are estimates built from the numbers you shared with us, and depend on your own close rate and pricing.

• PROOF

The same system, already working.

A few of the businesses running this exact structure with us right now.

\$40k → \$180k
per month

Liam Evans
Unorthodox Digital

"You've saved me time and made us money. The business is only as strong as the systems it's built on, and what you built us is world-class."

\$0 → \$40k
per month

Kasey Jones
Essentialist CEO

We averaged around 550 leads a month for Kasey through her funnel, starting with the newsletter and then evolving into paid traffic.

\$50k → \$90k
per month

Matthew DiMarcantonio
Ember

Grew to a consistent \$90k a month through his funnel, and is now doubling his marketing input and spend on the back of it.

• THE ROADMAP · A 90-DAY INTRO ENGAGEMENT

£2,500

approx \$3,000 · one-time

We bill in GBP, but that is roughly **\$1,000 a month** to conservatively generate around **\$8,000** in new enrollments from the guaranteed calls alone, and likely well more once memberships compound. The complete 90-day engagement, funnel live in 7 days, with a five-call guarantee behind it.

Want to save \$700?

Introduce another business owner who wants more booked calls, and if they come on board with us, we knock **£500 (roughly \$700) straight off your engagement**, refunded the moment they close. The easiest way to set it up is a quick three-way WhatsApp with you, me, and them.

● STRAIGHT ANSWERS

The questions worth asking

"Can we start in late August, once the summer budget frees up?"

Yes, and late August lines up perfectly with the school-year momentum you want to capture, with the funnel live seven days from day one. Deciding now simply holds your build slot so we are ready to drive traffic the moment you are.

"I need to run this by my business partner first."

Of course, and this document is built for exactly that. The deliverables, the guarantee, and the numbers on your own figures are all here in writing, so you and your partner can weigh it together and come to the call on the 29th with a straight yes or no.

"I'm looking for a full marketing company, not a one-off project."

That is precisely how this is designed to begin. The 90 days is the proving ground, and if it performs it evolves into the long-term revenue-share partnership most of our clients are on now, where we run marketing as your team, not a project you have to manage.

"I don't have the bandwidth to take on one more thing I might neglect."

You will not have to. This is fully done for you: one hour from you for the offer session, and we handle the build, the traffic, and the tracking. It is designed to take work off your plate, not add another hat for you to wear.

"Does Facebook even work for parents who find us on Google?"

You never have to touch paid ads, the included newsletter carries the guaranteed calls, and your Google traffic keeps running untouched. If you ever do want to test Meta, a clear enough offer reaches parents where they already scroll, and we build and manage it free, so there is no risk in finding out.

The next step

We speak again on **Wednesday the 29th of July**, ideally with your business partner on the call. Take a proper look at the funnel and this proposal beforehand, share it with your partner, and we will answer anything still open. All we ask is a clear yes or no so we both plan our time well. If it is a yes, we can time the seven-day build to your late-August restart. If it is a no, no hard feelings, and the page is yours to keep.

Founder, Optimally

P.S. What stood out was that you would rather not begin than begin something and let it slip, and that standard is exactly the one we hold ourselves to, which is why this will not become one more thing you carry alone.
